I am a web developer with a fluent understanding of WordPress theme building and seamless front-end HTML with 3 years of experience in information technology and a progressive experience in writing code and designing web and software-based solutions. I seek to solve everyday life problems with IT and tech.

I have created responsive WordPress websites and custom graphics sets for high-worth clients that solve major problems in e-commerce, church administration, hospitality and likes.

I have a professional approach to timelines and deadlines, excellent in work, verbal and written English. I am proficient in customizing custom WordPress themes and experienced in using WordPress plugins like Elementor, WPML, Woocommerce, ACF, Gravity Forms and Yoast SEO and likes to create a fully functional and aesthetically pleasing websites. I am mostly functionality focused as well as design and aesthetics minded.
